Dear Sir, Assalaam-o-alaikum

With reference to your advertised position of "Chief Executive Officer", attached please find my CV and the 'Career Synopsis' regarding the subject position for your perusal. Alhamdulillah, I believe I have the right education along with the international/local professional experience that you are looking for.

Following are the brief highlights of my education and international / local professional career:

M.S. (Mechanical Engineering), 1993, University of Detroit, Michigan, USA (Highest GPA in Class)

B.E. (Mechanical Engineering), 1990, NED University, Karachi, Pakistan (Fifth Merit Position, 88%)

◆ International/local professional experience of 27+ years with multinational companies (from Austria, Germany, Pakistan, KSA & USA) consists of:

- Production Operation / Service Delivery and Program / Project Management
- Quality Assurance/Control, Budget Planning and Equipment/Material Management
- Employees Selection, Performance Management & Development.
- Business Process Re-engineering & Technology Solution Implementation.
- Product Development & Manufacturing

◆ Through various professional employment experiences in engineering and manufacturing, interfaced with executive management and gained valuable experience while working in a manufacturing environment of Ford Motor Company (USA) and its associated suppliers of Product Design and development, Stamping Engineering , Die Design, Pattern Manufacturing, Castings foundry, Tool and Die manufacturing & Stamping Plants via joint effort between Ford Motor Company (USA) and SIEMENS(USA).

◆ Lately at Aisha Steel (while reporting to CEO of ASML), Alhamdulillah led the successful expansion of Aisha Steel to increased production capacity of 700000 tons of CRC rolling and 250000 tons of HDGC. This large plant expansion (PKR Multi-billion) involved development in civil, mechanical (erection and fabrication), electrical and utilities areas with commissioning of equipment while working with local and foreign companies (from China, Germany and Austria) and various ASML departments including Engineering, Supply Chain, IT, Internal Audit, Finance, Production, Production Planning, Quality Assurance , EHS, Human Resources and Administration.

Looking forward to your favorable response soon, In shaa Allah.

Thanks,
Best regards,
Muhammad Aminullah
